TAX DRILLING WELLS

Oil wells in the drilling stage or production stage will be taxed \$24 a year by the city of Torrance, according to an ordinance passed through second reading Tuesday night by the board of trustees. The tax is the same as the regulation business tax in the city. It was originally planned to tax only producing wells, but the trustees changed their minds.

Thomas Caldwell of Andreo avenue is quite ill at his home. Mr. Caldwell is employed by the city.

ARE YOU THANKFUL?

Are you thankful for the blessings That come to you each day, Or do you sadly sit and sigh For the things that got away? Do you dream of what you might have had, While just outside your door Are treasures rich in happiness You foolishly ignore?

Are you blind to things about you, Things that bring both peace and cheer, While you seek "green fields" out yonder That may bring an ache or tear? For we often miss the treasures That are just within our clasp, Just because our hands are itching For the things we cannot grasp.

We are told about the farmer Who sold his land one day To seek both fame and fortune In the lands of far away. His money soon was squandered And his back was bent from toll, While on the farm he left behind They're digging wells for oil.

Success and fortune wait you Not in some distant land But in the tasks before you— The things just at your hand. It's having faith and seeing The things there are to do And working with a prayer of thanks

For blessings God sends you, HARRY GAMBICHLER.
